# The Daily News.

NEWPORT,

BY CRANSTON & NORMAN,  
127 Thames Street.

TUESDAY MORNING, APRIL 16, 1851.

We think it of but little use to speculate upon the causes of the late defeat of the Whig party in this State; we are all sufficiently familiar with the results. The great difficulty commenced in 1815, when James F. Simmons left his seat in the Senate, and came home to Rhode Island, and took up upon himself the responsibility of breaking down the party, by running a candidate against the regular nomination of the Convention of the party. Through his influence, with the assistance of the Dorrits, he accomplished this object, and succeeded in defeating the wishes of the party. This was the commencement of the trouble, and the grand responsibility rests upon James F. Simmons; he knows this, and he has left, and is feeling the sting of it as keenly as any man can. He continued his mischievous pursuits last winter, by attempting to thrust himself upon the Whigs, into the Senate, when he was not wanted. He persisted to the last, and the result was the election of a Lieutenant Governor on the island of Rhode Island had a Lieutenant Governor with two residences. He has generally been considered quite fortunate if he had one.

**CONNECTICUT ELECTIONS.**—The returns from the annual election held in this State on Monday, show that, Chauncey F. Cleveland, Free Soiler, C. M. Ingerson, Loco, and Charles Chapman, Whig, are elected to Congress, and the chances are in favor of the re-election of Thamas B. Butler, Whig. There is no choice of Governor or by the people, and the Legislature is in doubt.

**At the Congressional elections in Massachusetts, on Monday, there was**

no choice in the Second, Fourth and

Seventh Districts. Alien, Free Soil, is

probably elected in the Fifth.

**TEACHERS' INSTITUTE.**—There will be

a Teachers' Institute at Chepachet,

commencing Monday evening, April 21st. It will be free to all who intend

to teach in the State.

**"HOMESTEAD EXEMPTION,"** exclaimed

Mr. Furtling, throwing down the paper, "it's come to a pretty pass, indeed,

that men are going to exempt themselves

from home just when they please without any proviso for cold nights."

**The Tribune** reports that Gov.

Hunt has pardoned Isaac A. Biggs, who

was sentenced to the state prison about

a year since for sending threatening

letters to William B. Astor. His con-

duct while in prison is said to have se- cured the clemency of the Executive.

He had about two years of his sentence

yet to serve out.

A fellow was doubting whether or

not he should volunteer to fight the

Mexicans. One of the flags waving be- fore his eyes bearing the inscription

"Victory or Death," somewhat troubled

and disengaged him. "Victory is a

very good thing," said he, "but why

put it victory or death?" "Just put,"

said he, "victory or cripple, and I'll go that."

An instance of solicitous conjugal af-

fection was produced at the Somersets

(England) Sessions, which has hardly,

perhaps, been paralleled in the annals

of matrimony. In an appeal case, a

woman who was there as a witness,

sware that she had never lost sight of

her husband for twelve hours together

at any one time, either day or night,

during a period of fifty years.

We cut from the Texas State Ga-

zette the following unique letter of

Gen. Houston, written at one of the

gloriest periods of the Texan revolu-

tion:

**CAMP LIST OF BRAZOS, April 6, 1851.**

**Maj.**—I wish that company

of Spies would range as suggested by

you. The army increases, and the en-

emy do not advance as yet. Reinforce-

ments are arriving from the East.—

The army is in good spirits, and the

General sober.

Your obedient servant,

**SAM HOUSTON, Com-in-Chief.**

vise.

new the limbs and outward flourish

**COST OF OUR ARMY.**—In the last sixty-five years it is estimated that our military establishment has cost us nearly a thousand million dollars.

**Another Liverpool Steamship Line.**—The *Ladybelle*, splendid vessel of 1600 tons burthen, recently launched in New York, is to be transferred to the steam marine of our city, as the pioneer of a second Liverpool line of steamers, to be established by individual enter- prises at the head of which is John L. Linton, Esq., and is distinct from the company already in existence. She is to be commanded by Capt. Charles Stoddard, formerly of the Crescent City, and will sail for Liverpool on the 7th of May. Her arrival here may be ex- pected about the 15th inst.—*Phil. Ledger, Monday.*

Our townsmen, John D. Northam,

Esq., is one of the largest owners in this splendid ship.

**ELECTION.**—Everybody will go to Newport this year, to witness the "election" more properly, the inauguration of the new State officers; and the old town, with feeding and lodging the out- siders, will make a fortune out of what majority of her voters would seem to consider a political disaster. The Whigs who want to pay their respects to the new Lieutenant Governor on the occasion, will take an early boat for New York, and sail at 493 Broadway. Don't forget the number, gentlemen.—*Pro- Post.*

The editor of the Post should not joke on stubborn facts. The Town Council have decided that Gov. Lawrence has two residences, one here and one at 493 Broadway. It is many a day since Rhode Island had a Lieutenant Governor with two residences. He has generally been considered quite fortunate if he had one.

**COST OF OUR ARMY.**—In the last sixty-five years it is estimated that our military establishment has cost us nearly a thousand million dollars.

**First the Blade, then the Ear, then the full Corn in the Ear.**—The programme set forth in the organ of the Democratic party is exceedingly moderate. While the adherents of the triumphant party are boasting of the sweeping changes which shall signally their advent to power, and consequently the period which the constitutional interplay between them and the realization of their plans, the Post only demands, for the present, the blind ballot and the extension of the time for the payment of the registry index. The other matters it consents to postpone, probably to the June session. The Post modestly admits that it regards favorably "other measures" than those it has discussed; it admits that it "would be glad to see our constitution essentially changed in several particulars." Among those essential reforms it enumerates the abolition of the registry and the dollar tax, and the election of the judges by the people. These may be called "the ear," of which the two first are "the blade." The "full corn in the ear" is deeply shadowed forth as "other essential modifications which we might be pleased with, and which we may live to advocate." These reforms, which are so faintly hinted at in the Post, are bold enough proclaimed in the streets, —the removal of the property qualification for foreign voters, the alteration of the basis of the suffrage in the city of Providence, and the general breaking down of the conservative barriers which the constitution imposes for the protection of property and the security of order.

**ATLANTIC GARDEN, NEW YORK.**—Mr. D. Gardner has leased this old favorite Establishment. Mr. Gardner is not unknown to many of our friends, and former knowledge of his experience in this line of business, we have every reason to believe that he will be successful. The Beautiful Garden attached to this establishment has been much improved, and will be a most delightful place of summer resort. April 10.
